PROJECTS

JobShob | FYP | *React, Node.js, n8n, n8n AI Agents* | jobshob.me

- Built and deployed a full-stack AI-powered recruitment platform at jobshob.me with a responsive React frontend and Node.js backend.
- Implemented automated CV parsing, candidate scoring, and ranking using n8n AI agents and automation workflows.
- Developed a live interview module supporting text, audio, and video-based interviews for end-to-end candidate assessment.

Chatbot Web App | *React, Flask, OpenAI API*

- Built a full-stack AI chatbot with a React frontend and Python Flask backend.
- Integrated OpenAI API for real-time, context-aware responses with session-based chat history.

WhatsApp Interview Agent | *n8n, WhatsApp API*

- Automated an end-to-end interview screening workflow using the n8n automation platform.
- Reduced manual HR effort by integrating WhatsApp messaging for automated candidate Q&A.

Restaurant Menu Management App | *MongoDB, Express.js, React, Node.js*

- Built a full MERN stack application with complete CRUD operations for menu management.
- Designed a RESTful API backend and a dynamic React frontend with real-time updates.

Recipe List App | *React*

- Developed a CRUD application using React-DOM with add, edit, search, and delete features.
- Managed component state and implemented controlled forms for a seamless user experience.

EXPERIENCE

Automation Workflow Intern | *Figover* | 2025

- Designed and deployed n8n automation workflows to streamline business processes.
- Integrated third-party APIs to automate data transfer and replace manual, repetitive tasks.

Volunteer Teacher | *Faiz-ul-Islam, Faizabad, Rawalpindi* | 2024

- Taught foundational subjects to underprivileged students and prepared tailored lesson plans.
