PROJECTS

JobShob - AI Recruitment Platform | *Final Year Project* | *React, Node.js, n8n, AI Agents* | jobshob.me

- Built and deployed a full-stack AI recruitment platform handling the complete hiring pipeline, with a responsive React frontend and a Node.js/Express backend.
- Engineered automated CV parsing, candidate scoring and ranking using n8n AI agents, replacing manual shortlisting with an automated pipeline.
- Developed a live interview module supporting text, audio and real-time interviews for end-to-end automated candidate assessment.

WhatsApp Interview Agent | *n8n, WhatsApp Business API*

- Automated an end-to-end candidate screening workflow on the n8n platform, from first contact to scored response.
- Integrated WhatsApp messaging for automated candidate Q&A, removing manual HR follow-up entirely.

AI Chatbot Web Application | *React, Flask, OpenAI API*

- Built a full-stack AI chatbot with a React frontend and a Python Flask backend.
- Integrated the OpenAI API for real-time, context-aware responses with session-based chat history.

Restaurant Menu Management System | *MongoDB, Express.js, React, Node.js*

- Built a full MERN-stack application with complete CRUD operations for menu and category management.
- Designed a RESTful API backend and a dynamic React frontend with real-time updates.

EXPERIENCE

Automation Workflow Intern | *Figover* | 2025

- Designed and deployed n8n automation workflows that streamlined recurring internal business processes.
- Integrated third-party APIs to automate data transfer and replace manual, repetitive tasks.

Volunteer Teacher | *Faiz-ul-Islam, Faizabad, Rawalpindi* | 2024

- Taught foundational subjects to underprivileged students and prepared tailored lesson plans.

EDUCATION

BS Computer Science | *Capital University of Science and Technology (CUST), Islamabad* | August 2026

CGPA: **3.87 / 4.0**

ACHIEVEMENTS & CERTIFICATIONS

- Multiple Dean's Honor Awards | Capital University of Science and Technology (CUST).
